Education Awareness

Our Education Awareness Programs are all about showing how important education is, in places where it might not be clear. We did different projects to help people understand the value of education. We had workshops and talks, reaching **over 10,000** people in Banaskantha District.

One big win is that in areas where we worked, there's been a 60% increase in kids going to primary school. We talked to parents and kids, explaining why education matters. Now, more kids are excited to learn & grow.

Our workshops not only cleared up misunderstandings but also helped people see the bigger picture of how education is so impactful.

Feeding programs were implemented to address hunger among street animals, ensuring their well-being. Simultaneously, awareness campaigns emphasized responsible pet ownership, promoting ethical treatment.

These efforts yielded positive outcomes, reaching hundreds of street animals with crucial care and medical support. Environmental Protection

We care deeply about our environment, so we initiated programs:

Sustainable Farming: Our efforts in sustainable farming aimed at teaching farmers Earth-friendly methods. This involves using techniques that benefit both the environment and us. Through training sessions, farmers learned how to reduce the use of harmful chemicals, ensuring healthier crops and safer land. This not only supports the farmers but also ensures our communities have access to nutritious food.

Environmental Conservation: In addition to sustainable farming, we actively engaged in plantation & cleanliness activities to contribute to a healthier environment for our communities. These initiatives involved cleanup drives and awareness campaigns to keep our surroundings clean and green.
